

ACTIVITY 8B

Discussion of living near a nuclear reactor

Driving Question:

What if I'm living near a nuclear reactor?

As a new citizen to a neighborhood that calls itself home to a nuclear power plant, you are given a pamphlet from FEMA that asks you “Are you ready?”

Please review this pamphlet carefully and answer the questions at the end of the document.

After determining your nuclear readiness, you will be given a viewpoint held by a real person living near a nuclear reactor. Share this viewpoint with your other neighbors and discuss your feelings and reactions to the overall group.
